NOTEBOOK COMPUTER

SONY®

Information in this document is subject to change without notice.

Sony, VAIO and CLIE are trademarks or registered trademarks of Sony. Microsoft, Windows, Windows Media, Outlook, Bookshelf and other Microsoft products are trademarks or registered trademarks of Microsoft Corporation in the United States and other countries.

The word Bluetooth and the Bluetooth logo are trademarks of Bluetooth SIG, Inc. AMD, AMD logo, AMD Duron and combinations thereof, 3DNow!, are trademarks of Advanced Micro Devices, Inc. Intel Inside logo, Pentium and Celeron are trademarks or registered trademarks of Intel Corporation. Transmeta, the Transmeta logo, Crusoe Processor, the Crusoe logo and combinations thereof are trademarks of Transmeta Corporation in the USA and other countries. Graffiti, HotSync, PalmModem, and Palm OS are registered trademarks, and the Hotsync logo and Palm are trademarks of Palm, Inc. or its subsidiaries. (M) and Motorola are trademarks of Motorola, Inc. Other Motorola products and services with (R) mark like Dragomball are the trademarks of Motorola, Inc.

All other names of systems, products and services in this manual are trademarks or registered trademarks of their respective owners. In this manual, the (TM) or (R) mark are not specified.

Caution Markings for Lithium/Ion Battery - The following or similar texts shall be provided on battery pack of equipment or in both the operating and the service instructions.

CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Discard used batteries according to the manufacturer's instructions.

CAUTION: The battery pack used in this device may present a fire or chemical burn hazard if mistreated. Do not disassemble, heat above 100°C (212°F) or incinerate. Dispose of used battery promptly. Keep away from children.

CAUTION: Changing the back up battery.

- Overcharging, short circuiting, reverse charging, mutilation or incineration of the cells must be avoided to prevent one or more of the following occurrences; release of toxic materials, release of hydrogen and/or oxygen gas, rise in surface temperature.
- If a cell has leaked or vented, it should be replaced immediately while avoiding to touch it without any protection.

## Service and Inspection Precautions

### 1. Obey precautionary markings and instructions

Labels and stamps on the cabinet, chassis, and components identify areas requiring special precautions. Be sure to observe these precautions, as well as all precautions listed in the operating manual and other associated documents.

### 2. Use designated parts only

The set's components possess important safety characteristics, such as noncombustibility and the ability to tolerate large voltages. Be sure that replacement parts possess the same safety characteristics as the originals. Also remember that the  $\triangle$  mark, which appears in circuit diagrams and parts lists, denotes components that have particularly important safety functions; be extra sure to use only the designated components.

### 3. Always follow the original design when mounting parts and routing wires

The original layout includes various safety features, such as inclusion of insulating materials (tubes and tape) and the mounting of parts above the printer board. In addition, internal wiring has been routed and clamped so as to keep it away from hot or high-voltage parts. When mounting parts or routing wires, therefore, be sure to duplicate the original layout.

### 4. Inspect after completing service

After servicing, inspect to make sure that all

screws, components, and wiring have been returned to their original condition. Also check the area around the repair location to ensure that repair work has caused no damage, and confirm safety.

### 5. When replacing chip components...

Never reuse components. Also remember that the negative side of tantalum capacitors is easily damaged by heat.

### 6. When handling flexible print boards...

- The temperature of the soldering-iron tip should be about 270C.
- Do not apply the tip more than three times to the same pattern.
- Handle patterns with care; never apply force.

Caution: Remember that hard disk drives are easily damaged by vibration. Always handle with care.

### ATTENTION AU COMPOSANT AYANT RAPPORT À LA SÉCURITÉ!

LES COMPOSANTS IDENTIFIÉS PAR UNE MARQUE  $\triangle$  SUR LES DIAGRAMMES SCHÉMATIQUES ET LA LISTE DES PIÈCES SONT CRITIQUES POUR LA SÉCURITÉ DE FONCTIONNEMENT. NE REMPLACER CES COMPOSANTS QUE PAR DES PIÈCES SONY DONT LES NUMÉROS SONT DONNÉS DANS CE MANUEL OU DANS LES SUPPLÉMENTS PUBLIÉS PAR SONY.

L-2 16-inch UXGA, SXGA (Clear Black) – Made by HI – .....	4-11
L-3 15-inch XGA (Clear Black) – Made by HI – .....	4-12
L-4 15-inch SXGA, XGA (Normal, High Brightness) – Made by SH – .....	4-13
L-5 14-inch XGA – Made by HI – .....	4-14
<b>Accessory</b>	
A-1 .....	4-15
<b>DIP Switch</b> .....	4-16

• 分解図と部品表は、パームレスト、ボトムなどのブロックごとに分かれています。機種によって部品表のセクションが異なりますので、詳細は右下の一覧表を参照してください。

- NOTE:**
- Items marked “ \* ” are not stocked since they are seldom required for routine service. Some delay should be anticipated when ordering these items.
  - The mechanical parts with no reference number in the exploded views are not supplied.
  - When two or more parts are shown, use the part described first as the main part.
  - The parts marked “ \$ ” are the High Value Modules (HVM).
  - The parts marked “ # ” are the parts on which barcode label is attached. For the barcode label, refer to CHAPTER 5.
  - The parts marked “ & ” are the “Customer Replacable Parts (CRP)” that can be replaced by Field Customer Support. Especially the parts with the <&> mark require the special attention to use them. Here fore, check first whether the desired part is one of the targetted parts of the Customer Replaceable Parts(CRP), or the non-targetted parts by referring to the exploded view.
  - Regarding the boards of this model, the discrete parts on the boards cannot be replaced. However, Some connectors can be replaced.

The components identified by mark △ or dotted line with mark △ are critical for safety. Replace only with part number specified.

Les composants identifiés par une marque △ sont critiques pour la sécurité. Ne les remplacer que par une pièce portant le numéro spécifié.

- 【使用上の注意】**
- \* 印の部品は常備在庫しておりません。
  - 図面番号のない部品は供給しません。
  - 併記部品の場合、上部記載部品をメイン部品として使用してください。
  - 部品名称の前に\$ 印のついた部品は、High Value Module (HVM) です。
  - 商品名称の前に# 印のついた部品は、バーコードラベル貼付部品です。バーコードラベルについてはCHAPTER 5を参照してください。
  - 部品名称の前に& 印のついた部品は、お客様窓口などでも交換可能な Customer Replacable Parts (CRP) です。特に<&> 印のついた部品は、使い分けが必要な部品ですので、分解図で Customer Replacable Parts 対象部品か、対象外部品かを必ず御確認ください。
  - 本モデルの基板については、基板上の各部品の修理は行うことができません。ただし、一部のコネクタについては、修理可能です。

△印の部品、または△印付きの点線で囲まれた部品は、安全性を維持するために重要な部品です。従って交換時は、必ず指定の部品を使用してください。

How to Use Parts Differently.

This series of product uses the three different types of optical drive (Pi type and So type).  
When replacing the optical drive, use the Pi type parts for the Pi type optical drive, and use the So type parts for the So type optical drive.  
Replace the peripheral parts of optical drive with the same type in the same way.

[ How to identify the Pi and So types of parts ]

- This parts list contains two different types of parts.  
The first type is the parts that are common to all models.  
The other type is the parts that are different depending on each model.
- The model that is accompanied by asterisk (\*) is the CTO model.
- この部品表は、機種共通の部品と、機種によって使い分けが必要な部品に分かれています。
- 機種名に (\*) がつくのは CTO モデルです。

\*1 For the AC adaptor shown by the reference No. 1001 of the GRT270G, GRT260G and GRT240G, be sure to install the FILTER CLAMP shown by reference No. 1014.

\*1 GRT270G,GRT260G,GRT240G の ref.1001 AC アダプターには ,ref.1014 FILTER CLAMP を必ず取りつけてください。

DIP Switch

The DIP switch setting is following table.  
DIP スイッチの設定は下の表をご参照ください

J	PCG-GRT55E/B 	△[MA] PCG-GRT77E/P 	
AM	△[MA] PCG-GRT270G 	△[MA] PCG-GRT260G 	△[MA] PCG-GRT240G 
	△[MA] PCG-GRT35F 		
EU	PCG-GRT896HP 	PCG-GRT816M 	PCG-GRT895MP 
	PCG-GRT815E,GRT815M 	△[MA] PCG-GRT896SP 	△[MA] PCG-GRT816S 

[FOR CTO MODEL]

The DIP switch setting is different depending the types of LCD, CPU and VIF board.  
Set the DIP switch of the CTO model in accordance with the above table.  
For the method of identifying the types of the VIF board, see the illustration shown below.

DIP スイッチの設定は、LCD や CPU、VIF 基板の種類により異なります。  
CTO モデルは、上の表に従って DIP スイッチを設定してください。  
VIF 基板の見分け方については、下記の図をご覧ください。

## 5-2. Replacing the CPU

### 1. Removing the CPU

- ① Insert a flat-blade screwdriver into the notch as shown in the illustration and rotate it so that the protrusion comes to the lock release position.
- ② Pull the CPU gently upward to lift it out of the CPU socket.

### 2. Installing the CPU

- ① Align the triangle reference mark of the CPU with that of the CPU socket and insert all the pins of the CPU to the corresponding holes of the CPU socket.
- ② Insert a flat-blade screwdriver into the notch as shown in the illustration and rotate it so that the protrusion comes to the lock position.

#### NOTE:

Rotate a flat-blade screwdriver to the lock position securely. If not, the operation of the CPU may become unstable.
